

# OPPORTUNITY TO VOLUNTEER IN THAILAND

Teaching English to less fortunate children in rural areas of Thailand

## Araya Foundation for Education

The Araya Foundation aims at helping rural children receive a qualitative outstanding education. We have a volunteer teaching program to assist rural teachers and children get exposure to foreign languages and cultures. Because English is the second language in Thai schools, we will concentrate on improving the English language skills of both rural teachers and children. At the present we aim to help six public elementary schools (grades 1 to 6) close to Chiangmai, Thailand. We now have positions open for Volunteer English Teachers:

The 1st semester starts in mid-May until the end of September  
The 2nd semester starts in November until end of February  
(we accept volunteers any time during the semester)

This is a great opportunity to spend some time in Thailand and immerse yourself in Thai culture while doing something good to help others. We provide the volunteers lodging and meals in return for their generous services.

**We DO NOT charge for participation in our program**
